FMSHRC: Cloud Hosting | Managed IT Services

Customer Testimonial

"vTech provided exceptional IT support for the USDA ARS Library Systems Operations and Maintenance project. Their meticulous project management and proactive approach to addressing issues resulted in a seamless workflow. Their ability to quickly resolve challenges and maintain high-quality service throughout the contract highlights their commitment to excellence. vTech's professionalism and efficiency played a significant role in the success of this project."

-Marian Dyson, Contracting Officer, USDA ARS

Federal Customers

vTech Differentiator

vTech delivers mission-aligned digital modernization by pairing accountable execution with scalable, security-first expertise across the public and private sectors.

Why Work with 8(a) Small Businesses?

Working with an 8(a) small business helps agencies meet statutory small business and socioeconomic contracting goals while gaining agile, innovative, mission-focused solutions. Agencies can award 8(a) sole-source contracts up to \$5.5M and use competitive 8(a) set-asides for larger requirements, often reducing procurement lead time, expanding access to qualified firms, and accelerating mission delivery.
